SMARTER SHADES

#### **AUTOMATE APP**

The Automate Pulse2 App enables sophisticated shade control straight from any iOS or Android smart phone or tablet.

Utilise the Automate Pulse2 App to group shades by room or scene, establish custom schedules and set timers for convenient and efficient shade control.

#### POWERED BY ARC

ARC™ (Automate Radio Communication) is Rollease Acmeda's proprietary, bi-directional communication technology that brings the Automate motorised shade systems together. ARC communicates the status of shade positioning and battery health straight to the Automate App.

## **VOICE CONTROL**

Utilising voice commands, operating Automate controlled shades is now more convenient than ever.

Automate takes advantage of native integration for shade control with Apple HomeKit & Siri, Google Home & Assistant and Amazon Alexa. The "native" control responds to the user's naturally-spoken language for shade operation and does not require any additional set-up.

Alternatively, shades can be synchronised with smart devices and actions with IFTTT.

#### HOME AUTOMATION SYSTEMS

Control shades, lighting, entertainment, security, climate and other connected devices via one convenient control system.

Automate is compatible with a variety of premium home automation systems of these solutions to enable shade control.

For home automation systems outside this compatibility list, simply use the Automate Relay Module to bridge the connection between the smart system and Automate motors.

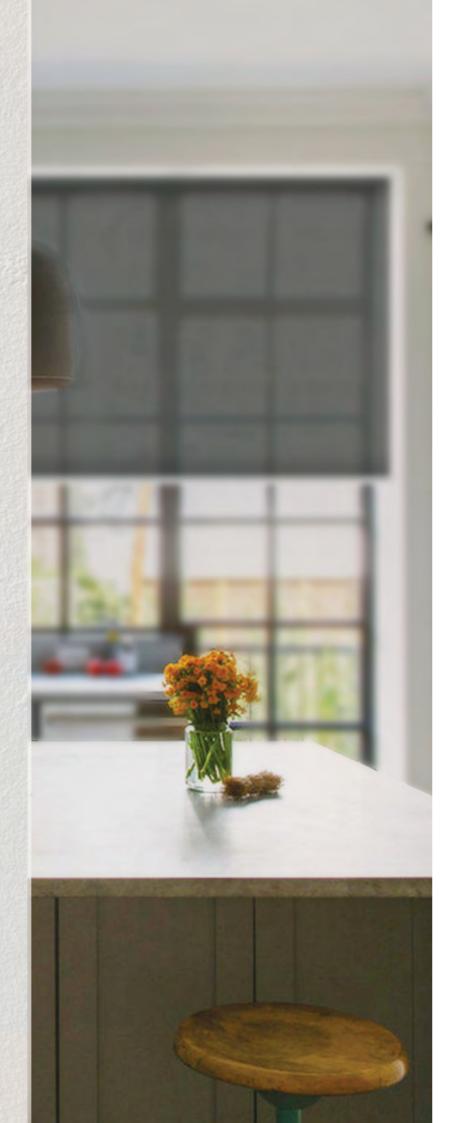

## **AUTOMATE PUSH REMOTES**

The cutting-edge design of the new Automate Push remotes is modern, simple and functional.

Available in gloss white or matte black finish, Push remotes feature a tactile button layout for improved usability.

**ARC** 

## **AUTOMATE PARADIGM** WALL SWITCHES

Automate Paradigm wall switches feature 15 channels within a contemporary design. The wireless Paradigm controllers are retro-fit ready, making them perfect for all motorised shade applications.

#### ARC MOTION SENSOR

Installation of an ARC Motion Sensor allows for protection of external awnings from the elements.

The ARC Motion Sensor can detect movement and strong vibrations, such as wind, triggering the motor to automatically close the awning.

## **SOLAR POWERED ARC** WIND & SUN SENSOR

The solar powered wind and sun sensor will naturally react to the elements to automatically open or close an awning, always providing a comfortable external environment or protection of the awning.

**ARC** 

Automate Wire-Free Li-ion Zero Q1.1 5V, 1.1Nm, Ø25mm, 20-28RPM, 552mm long

Automate Wire-Free Li-ion Zero Q1.1 Short 5V, 1.1Nm, Ø25mm, 20-28RPM, 479mm long

Automate Wire-Free Li-ion Zero Q2.0 5V, 2.0Nm, Ø28mm, 20-28RPM, 649mm long

ΛRC

Automate Wire-Free Li-ion Q3.0 5V, 3.0Nm, Ø35mm, 20-28PRM, 849mm long

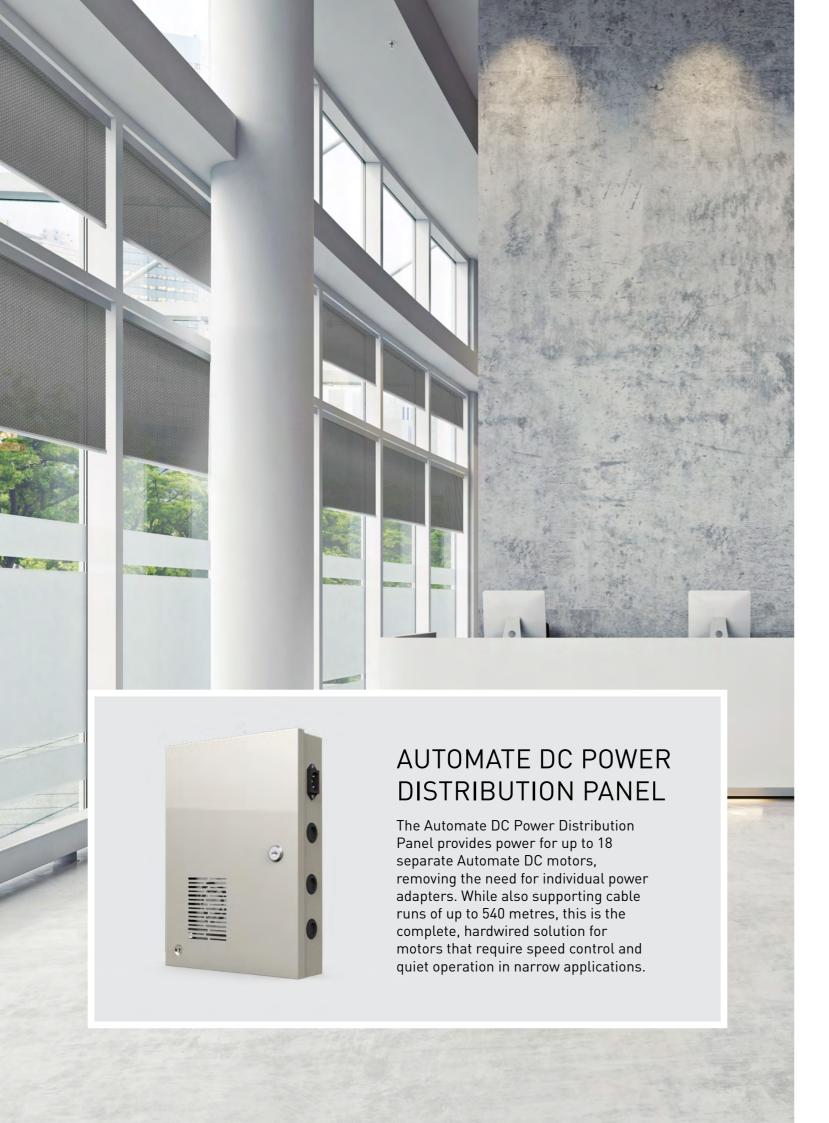

Automate Wire-Free Li-ion Q10 5V, 10.0Nm, Ø45mm, 9RPM, 816mm long

## **AUTOMATE SOLAR PANEL**

With its smaller design and improved performance in low light, the new Automate Solar Panel offers an energy efficient upgrade for the entire Automate Wire-Free Li-ion range of motors.

#### AUTOMATE DC ROLLER MOTORS

Automate DC motors are an excellent choice for motorising roller shades in the residential space or for small commercial projects.

The Automate DC Roller Motors connect with low voltage cables, so a qualified electrician is not required for set-up, therefore keeping installation costs to a minimum.

With the variable speed settings, the Automate DC Roller Motors can be fixed to a slower, quieter speed to suit small spaces.

Automate DC 1.1 12V, 1.1Nm, Ø25mm, 20-40RPM, 299mm long

Automate DC Q2.0 12V, 2.0Nm, Ø28mm, 20-28RPM, 437mm long

#### AUTOMATE E & M ROLLER MOTORS

For roller shades to suit medium to large windows and large commercial projects, the Automate E range of AC powered motors and the Automate M range of mechanical limit motors are the ideal hard-wired choice.

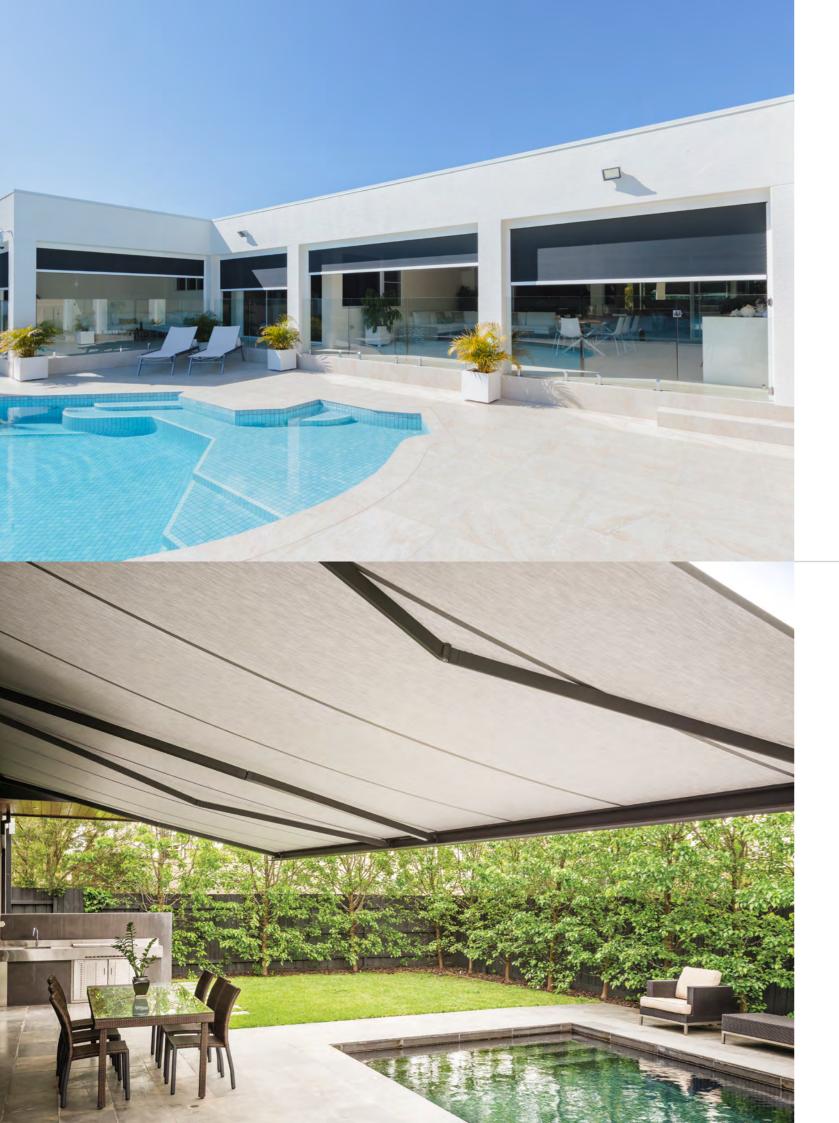

Automate E6 240V, 6.0Nm, Ø35mm, 28RPM, 579mm long

Automate M6 240V, 6.0Nm, Ø35mm, 28RPM, 473mm long

#### AUTOMATE EXTERNAL MOTORS

The Automate FT15 has been tailored for Rollease Acmeda's Zipscreen and External Wire Guide systems. When used with Rollease Acmeda's Ultra-Lock, a simple touch will activate the FT15 motor to automatically close, lock and tension the blind for increased stability and ease of use.

At the upper end of the scale, the Automate AX50 provides all the benefits of having smart shades with the lifting capacity required to control the Zipscreen Extreme and Wire Guide Extreme.

Automate FT15 240V, 15.0Nm, Ø45mm, **ARC** 15RPM, 621mm long

Automate AX50 240V, 50Nm, Ø45mm, 12RPM, 676mm long

### **AUTOMATE AWNING MOTORS**

**ARC** 

The Automate AX30 and AX50 are our most adaptive set of external motors yet. Designed to power a collection of outdoor shades, the AX range is built to smoothly operate open bracket and closed cassette configurations.

Featuring impact detection, precise limit adjustment and self-tightening technology, both motors ensure cassette awnings come to a perfectly sealed close, every time.

The AX30 and AX50 can be used with the Extreme roller systems, and our full range of folding-arm awning solutions.

Automate AX30 240V, 30Nm, Ø45mm, 15RPM, 676mm long

Automate AX50 240V, 50Nm, Ø45mm, 12RPM, 676mm long

#### **AUTOMATE ROMAN MOTOR**

The Automate CL 0.8 motor can be paired with Rollease Acmeda's SS38 Motorised System, providing a flexible motorised solution for roman shades.

Offering the choice of battery power or 12V wired connection, the CL 0.8 also integrates with the Automate suite of controllers to achieve the smart shade experience.

Automate CL 0.8 12V, 0.8Nm, Ø24mm, 34-50RPM, 193mm long

#### **AUTOMATE CURTAIN MOTORS**

**ARC** 

The Automate C motor for curtains features stand-out "soft touch" technology. A gentle pull on the fabric will initiate movement to automatically open or close the curtain.

This impressive motor has been designed to be quiet for acoustic comfort and offers the luxury of shade automation with the suite of Automate controls.

Automate Versa Drapery Motor 240V, 1.2Nm,

80-120RPM, 326-460mm long

## **AUTOMATE TILT MOTOR**

The Automate tilt motor enables motorisation of Venetian Blinds with both low and high profile head-rails. With adjustable speeds and automation configuration available through the Automate Pulse2 app, users can optimize an environment's daylight throughout each day.

Automate Core Tilt 8.4V, 0.6Nm, 10RPM, 3.78in long
